

# Joint application for termination/ conclusion of network contract in the event of change of ownership

## Customer

(the person who terminates the current contract)

### Name

ID code/registration number

Contact address

Telephone

Email

Contact person of company

## Customer

(the person who concludes the new contract)

### Name

ID code/registration number

Contact address

Telephone

Email

Contact person of company

## Details of customer installation

Address (street, building, flat, city, municipality, county)

Metering point EIC / number of effective network contract

## 1. Cancellation of network contract

The CUSTOMER hereby declares that they are cancelling the network contract valid for the given customer installation, the expiry date of which is \_\_\_\_\_. (at least 3 working days after submission of the application)

I am aware that:

- ✓ it is not possible to terminate the network contract retroactively;
- ✓ I am responsible for the performance of the network contract until the termination of the network contract;
- ✓ when the network contract expires, the gas sales contract concluded for the customer installation also expires;
- ✓ upon the expiry of the network contract, I am obliged to allow the network operator to perform the network operation, the inspection of the metering device of the customer installation and, if necessary, record the reading of the metering device.

## 2. Conclusion of a new network contract

The NEW CUSTOMER hereby expresses the wish to enter into a network contract for the given customer installation in such a way that it enters into force on the calendar day following the expiry of the network contract referred to in point 1.

Please send the network contract for signing:                      by email                      by post

Please send invoices:    by email                      by post

I am aware that:

- ✓ the new network contract enters into force on the third working day after the contract has been signed by both parties, i.e. the signed network contract must be returned to the network operator at least three (3) working days before the desired date of entry into force of the network contract.
- ✓ if the signed contract is not returned, the network contract will not enter into force and then the customer installation does not have the right to consume gas and the network operator has the right to interrupt the gas supply;
- ✓ the resumption of gas supply is a service subject to a charge.

### 3. Recording the transfer reading of network contract

---

The final reading of the current network contract of the existing CUSTOMER is the initial reading (*transfer reading*) of the network contract of the NEW CUSTOMER.

- a) In the case of a **remote meter**, the transfer reading is based on the reading recorded by the network operator by remote reading on the date of termination of the existing network contract.
- b) In the case of a **meter read on site**, the transfer reading is:

\_\_\_\_\_

the reading submitted by the NEW CUSTOMER to the network operator;  
*As a rule, the NEW CLIENT submits the reading no later than on the working day following the last day of the term of the existing network contract. If the NEW CUSTOMER has not submitted the transfer reading to the network operator by the last working day of the calendar month, the network operator has the right to consider the reading submitted by the CUSTOMER at the end of the previous calendar month or the reading forecast by the network operator as the transfer reading.*
