Details of customer installation

Address (street, building, flat, city, municipality, county)

Metering point EIC or number of effective network contract (not mandatory)

Cancellation of network contract

I hereby give notice that I am terminating my existing network contract for the customer installation: **due to a change of ownership of the customer installation or the expiry of the right to use the customer installation for any other reason (including termination of a lease)** and:

- the last day of the validity of the network contract is _____ (at least 1 month after the submission of the application)
- to the best of my knowledge, the contact details (name, email, phone) of the new customer are as follows:

.....
.....

* The network operator has the right to use the contact details only for the purpose of contacting the new customer for the purpose of concluding a network contract.

I am aware that:

- ✓ it is not possible to terminate the network contract retroactively and notice of termination of the network contract must be given one (1) month in advance;
- ✓ if the new customer concludes a network contract with the network operator before one (1) month has passed, the network operator can agree with me to terminate the network contract earlier;
- ✓ I am responsible for the performance of the network contract until the termination of the network contract;
- ✓ the network operator has the right to interrupt the gas supply at the latest on the expiry date of the network contract and I am obliged to allow the network operator to perform the network operation, the inspection of the metering device of the customer installation and, if necessary, record the reading of the metering device;
- ✓ interrupting the gas supply to the customer without welding and excavation work is free of charge;
- ✓ when the network contract expires, the gas sales contract concluded for the customer installation also expires.

by stopping the consumption of gas in the customer installation and:

- **I wish to interrupt the gas supply and allow the network operator access to the meter, the stop device and other equipment and premises necessary to perform the network operation** (at least seven (7) working days after submission of the request)
- **the last day of the validity of the network contract is the day the gas supply is interrupted.**

I am aware that:

- ✓ It is not possible to terminate the network contract retroactively and notice of termination of the network contract must be given one (1) month in advance;
- ✓ when the network contract expires, the gas sales contract concluded for the customer installation also expires;
- ✓ the interruption of gas supply is subject to a charge and the network operator must be notified of the wish to interrupt gas supply at least seven (7) working days in advance;
- ✓ the network operations are not performed on weekends and public holidays.
